SUBJECT: FINAL WORK PLAN, GROUNDWATER INVESTIGATION, IRP SITE 14, U. S. NAVAL WEAPONS STATION, SEAL BEACH
SITE GLOBAL ID: T0605901139

Dear Ms. Tamashiro:

We have completed our review of the above-referenced document, dated January 11, 2006 which we received on January 19, 2006. The activities proposed in the work plan are collection and analysis of water samples from the existing wells, the installation of several direct push borings for collection of water samples, and installation of three groundwater monitoring wells. The contractor then proposes to collect two rounds of groundwater samples from the existing and new groundwater monitoring wells for analysis.

We concur with the proposed work plan and request that the data and report be submitted electronically through the Geotracker website at http://geotracker.waterboards.ca.gov/. For instructions and questions regarding making electronic submittals (analytical data, work plans and reports), please go to the Geotracker website and click on Electronic Submittal of Information.

If you should have any questions, please call me at (951) 782-4498, or send e-mail to phannon@waterboards.ca.gov.

Sincerely,
